10.30 - 10.45 Morning tea

12.25 - 13.00 Lunch

15.00 - 15.15 Afternoon Tea

16.45 – Finish

Learning Objectives

This one-day training offers a thorough overview of asset management enabling participants, "to understand the fundamentals of asset management and how they can provide benefits to the organisation."

- 1. Define asset management
- 2. Identify the principles that underpin asset management
- 3. Identify available asset management tools and techniques applicable to an organisation
- 4. Identify opportunities to apply these learnings to improve individual and organisational performance

Online Exam

There is an assessment process for Asset Management Fundamentals that is conducted via an online exam on the Asset Management Council website. Each participant will receive details to access the exam.

The intent of this exam is to demonstrate that participants have understood the key points contained within the course. As such, the exam is open book, and is available from the conclusion of the course for two weeks.

Participants need to answer 39 questions that have been selected from a question bank. Successful completion is listed on the Asset Management Council website, and a certificate is issued.

The advantages of completing and passing the online exam, initiated on the day of the workshop, include:

- Evidence to current and future employers that you have attended the Asset Management
 Fundamentals Workshop
- Proof for participants, their colleagues and employer that they have a deeper understanding of asset management related topics and issues
- The exam contributes to becoming a Certified Associate in Asset Management (CAAM)
