The Department of Information and Communication Technology, Manipal Institute of Technology is organizing an International Conference on Recent Advances in Information technology for Sustainable development (ICRAIS-2023) on 6th and 7th November 2023. It is designed in the field of Engineering and Applied Science with the scope of multidisciplinary research. It is aimed to provide self-reliant technological solutions for the socially relevant and economically impactful strategies for the well-being of humanity, and sustainable development.

The conference provides a unique platform for researchers, technology solution seekers, experts and entrepreneurs, to present, interact, and network with peers. It acts as a forum to discuss and nurture ideas for developing products and innovative solutions for the betterment of mankind. A series of keynote presentations, and technical paper presentations are planned for this conference. This conference aims to bridge the gap between theory and practice in the domain of information technology as well as sustainable development to address the problems of social importance. All accepted and presented papers will be submitted for possible publication in IEEE Xplore® Digital Library through the IEEE Conference Publications Program (CPP).

## About Manipal Academy of Higher Education (MAHE)

Manipal Academy of Higher Education (MAHE) is synonymous with excellence in higher education. MAHE has been accorded the status of Institute of Eminence (IoE) by HRD, Government of India. Over 28,000 students from 57 different nations live, learn and play in the sprawling University town, nestled on a plateau in Karnataka's Udupi district. It also has nearly 2500 faculty and almost 10000 other support and service staff, who cater to the various professional institutions in health sciences, engineering, management, communication and humanities which dot the Wi-Fi-enabled campus.

## Manipal Institute of Technology (MIT)

MIT offers Bachelor's and Master's program in engineering streams. It also gives students the option to carry out full-time or part-time research. The minimum duration for postgraduate qualified PhD students is three years for full-time, and four years for part-time. The institute undertakes sponsored research programs supported by funding agencies such as DST, CSIR, AICTE, the Ministry of Environmental Sciences and Many more. It has collaborative research programs in association with premier research laboratories and institutes in India and abroad.

## Department of Information & Communication Technology (I&CT)

The Department of Information and Communication Technology was established in the year 2000. Over the years, the department has developed into a center for excellence, providing opportunities for innovation and research, with well-equipped computer laboratories and dedicated faculty. The department takes great pride in preparing the students for the industrial demands of the software and hardware sectors. Students are also trained in software development tools. The department offers B.Tech. (Information Technology, Computer and Communication Engineering), M.Tech. (Software Engineering, Computer Networking & Engineering, Machine Intelligence & Decision Science) and Ph.D. programs.
