About SHAAPED

An international conference is being hosted for the first time, under the Studies in Habitat with Academic Alliance in Planning Environment and Design (SHAAPED) which is a unit of Faculty of Architecture, MAHE, Manipal, broadly aimed to communicate the knowledge bank created in the academics to the outside world and vice versa. This forum would hold activities to enhance research exchange and discussion across and within the department and for general public. It is an arena where conferences and seminars of key areas of interest and latest findings are portrayed. Publishing books, manuals and journals to answer queries and share ideas for application for general public and highlight best practices for area/ function specific application are some of the broad spectrums in which SHAAPED is structured. It also offers workshops and training for relevant subjects in the domain of built environment and allied subjects.

As a subject for this first international conference “Conversations in Conservation” is being organised and being held from 21st to 23rd February 2019.

“Conversations in Conservation” as a topic has arisen to share ideas amongst the professionals, who have been working in the field of Architectural conservation & Heritage Management for many years now. These conversations are an important precedents for the future practices and mitigation measures in the related fields. Today the field of conservation & heritage management is undergoing a sea change in the methods of practices and procedures. As observed, in the last few decades, technology driven solutions are fast becoming part of the subject, and the gap between the technology and the regular practice is quite huge, and the same technology needs to permeate to the academia. Architectural Conservation is one end of the spectrum, it is also to be understood that management of the heritage assets is an even bigger task. Heritage management today has risen as a major practice in the field, advising the government and private organizations on the management aspects.

Keynote Speakers

Prof. Nalini Thakur

Prof. KB Jain

Prof. Minakshi Jain

Prof. AGK Menon

Technical sessions on

Documentation

Digital Application in Heritage

Heritage Mapping

Diagnostics in Heritage

About MAHE & FOA

Manipal Academy of Higher Education is synonymous with excellence in higher education. Over 28,000 students from 57 different nations live, learn and play in the sprawling University town, nestled on a plateau in Karnataka's Udupi district. It also has nearly 2500 faculty and almost 10000 other support and service staff, who cater to the various professional institutions in health sciences engineering, management, communication and humanities which dot the Wi-Fi-enabled campus. Every institute has world class facilities and pedagogy, which are constantly reviewed and upgraded to reflect the latest trends and developments in higher education. Faculty of Architecture started in 1978 with a B.Arch degree under Mysore University. The institute came under the newly established Mangalore University in 1980 as Dept. of Architecture. In 2003, Manipal Academy of Higher Education renamed the Dept. of Architecture as , Faculty of Architecture. In 2010, it became the 22nd institute of the Manipal Academy of higher education.
