

ORAL PRESENTATION SCHEDULE

Time: 2:00 to 5:00 PM

Venue: Gb Hall, Ground floor, Interact Building, KMC Lecture Halls

Sr. No.	Abstract ID	Topic
1	OP01	<i>In vitro</i> cell viability and expression studies of sesamol in human diabetic dermal fibroblasts
2	OP02	Efficacy of Feverfew for the treatment of migraine: A meta-analysis on the randomized double blind placebo studies
3	OP03	Protective effects of <i>Ficus religiosa</i> on sodium valproate induced gonadotoxicity in rats
4	OP04	<i>In vivo</i> investigation of p-coumaric acid on LPS-induced neuroinflammation associated memory loss in rats
5	OP05	Biochanin-A prevents statin-induced diabetes in a high sucrose-fed rodent model
6	OP06	Drug-entangled multi-walled carbon nanotubes against breast cancer: a computational and pharmacological approach
7	OP07	Neuroprotective effect of infliximab against chemotherapy-induced cognitive dysfunction in a mouse model of breast carcinoma
8	OP08	Design, synthesis, and characterization of N-alkyl-3-aryl-1H-pyrazol-5-amine derivatives as potential anti-leishmanial agents
9	OP09	Fibrinolytic Enzyme from a Marine Soil
10	OP10	Goan Cuisine: A spicy symphony of anti-inflammatory adaptogens
11	OP11	Comparison between wound healing activity of aqueous and alcoholic extract of <i>Andrographis paniculata</i> on dead space wound model
12	OP12	Protective effect of <i>Mucuna pruriens</i> on fluoxetine (antidepressant) induced testicular dysfunction in chronic unpredictable mild stress (CUMS) rat model
13	OP14	Effect of aqueous extract of <i>Andrographis paniculata</i> Nees. on dexamethasone suppressed wound healing in incision and excision wound models in rats
14	OP13	Integrated computational methods to unravel the mechanism of gentiopicroside to treat pulmonary fibrosis
15	OP15	Evaluation of antiurolithiatic activity of different herbal formulations available in the market
16	OP16	Integrative analysis of AMPK subunits in colorectal adeno carcinoma patients

POSTER PRESENTATION SCHEDULE

Venue: Open Lounge, Ground Floor, Interact Building, KMC Lecture Halls

Sr. No.	Category	Abstract Codes	Time
1	Pharmacology and Toxicology	PT01 – PT25	2:00 PM to 3:30 PM
2	Formulation, Translational and Clinical Drug Development	FT01 – FT26	2:00 PM to 3:30 PM
3	Drug Design and Synthesis	DD01 – DD16	2:00 PM to 3:30 PM
4	Concept and Review Papers	CR01 – CR19	3:30 PM to 5:00 PM
5	Drug Discovery from Biological/Natural Sources	BP01 – BP12	3:30 PM to 5:00 PM
