

Inflammo-CON 2025

National Conference on Inflammation & Drug Discovery

5-7 February 2025

Venue: Sharada Hall, Ground floor, MMC Building, MAHE, Manipal

Organized by:

Department of Pharmacology, Manipal College of Pharmaceutical Sciences, MAHE, Manipal

Oral Presentations

Presentation ID	Presenter name	Title
O1	Shivaramakrishnan Balasubramanian	Topical 5-amino salicylic acid promotes wound healing in diabetic wounds via VEGF-2 receptor mediated angiogenesis
O2	Piyush Vatsha	Investigation of antioxidants, antidiabetic and antihyperlipidemic activity of <i>Vitex trifolia</i> seeds in diabetic zebrafish model
O3	Silpa Prabha	From ancient medicine to modern cure: the efficacy of NIGELLIN® in managing allergies and metabolic syndrome
O5	Bharath H B	Experimental validation of network pharmacology and molecular docking predictions for <i>Swertia chirayita</i> in the treatment of lung fibrosis
O6	Anusha Sangalamath	Therapeutic potential cardioprotective activity of co-administration of gossypin and melatonin against isoproterenol induced cardiotoxicity in rats
O7	Himanshu Gupta	Modeling diabetes in zebrafish to explore metabolic dysregulation and regenerative responses through drug interventions
O8	Pooja C D	Protective effect of bixin isolated from <i>Bixa orellana</i> linn, on experimentally induced neurotoxicity in rats
O9	Mahima Vilas Sawant Bhonsle	Exploring the anxiolytic therapeutics from the leaf extract and bioactive fraction of <i>Getonia floribunda</i> R. - A preclinical and molecular docking study
O10	Aleena Varughese	Exploring the role of tissue factor in netosis, inflammation, and coagulation during lung injury: in vitro and in vivo perspectives
O11	A Seetha	SABROXY®: A safe nootropic supplement to boost brain performance
